

Dear Friends and Family,

Center Grove High School's Red Alert Robotics Team 1741 is entering its 18th year of competition. We continue to be a year-round team and are ramping up for our 2022-2023 Season. To be successful, ***we would like to ask for your assistance and support.***

**We raise 100% of our operating budget each year.** Our financial needs continue to grow as our teams do. We are a not-for-profit 501(c)(3) organization with over **500 students K-12** participating in Red Alert *FIRST*® Robotics programs this year. We turn away no Center Grove student who wishes to participate in one of our teams. Our goal is to help each student reach their best potential.

Thanks to our generous sponsors and donors, our team continues to have successful seasons and had a record award-winning season with Chairman's, Engineering Innovation and State Chairman's which earned us our trip to Worlds where we were World Finalists in Houston, TX! This is the highest Red Alert has ever placed!

Our students learn not only engineering and design skills, but also leadership, business, public speaking, coaching, and communication skills—**the skills they need to become the next leaders in our community.**

Each season, our team competes in several competitions throughout Indiana. Our team also has advanced to the *FIRST* World Championships multiple times, an accomplishment we are very proud of. You can view our team's work and images of robotics competitions at [www.redalert1741.org](http://www.redalert1741.org).

Please reach out to us if you have any questions. ***Kids may build good robots, but robots build great kids.***
